1/ For those orders that use the component pricing system for paying producers (orders 1, 30, 32, 33, 124, and 126), the figures are the statistical uniform price (the sum of the producer price differential and the Class III price). For those orders that use the skim milk/butterfat pricing system for paying producers (orders 5, 6, 7, and 131), the figures are the uniform price (the sum of the uniform butterfat price times 3.5 and the uniform skim milk price times 0.965). Figures are shown at 3.5 percent butterfat; see Table 33 for principal pricing points of markets. All averages are weighted using the applicable pounds of total producer milk receipts.

2/ Effective May 1, 2006, the name of the Federal order was changed. Clark County, Nevada which includes Las Vegas, was removed from the marketing area.
